

SEPTEMBER CHALLENGE: MAKE YOUR VOICE HEARD

Help us speak out on behalf of endangered animals this month!

THE CHALLENGE

This month, we are challenging ourselves to get the message out to more people about endangered species. It can be as easy as telling a family or friend, sharing a post on Facebook, or start your own group in your area.

The more we talk about endangered animals, the more we can inspire people to be involved. And if you're feeling extra ambitious, you can volunteer for a local organization working a contact table at a festival or event... or start a campaign for any number of groups such as African Wildlife Foundation (<https://fundraise.awf.org/start>)
