

Paper Roll Heart Mouse

A FANIMAL KID ACTIVITY

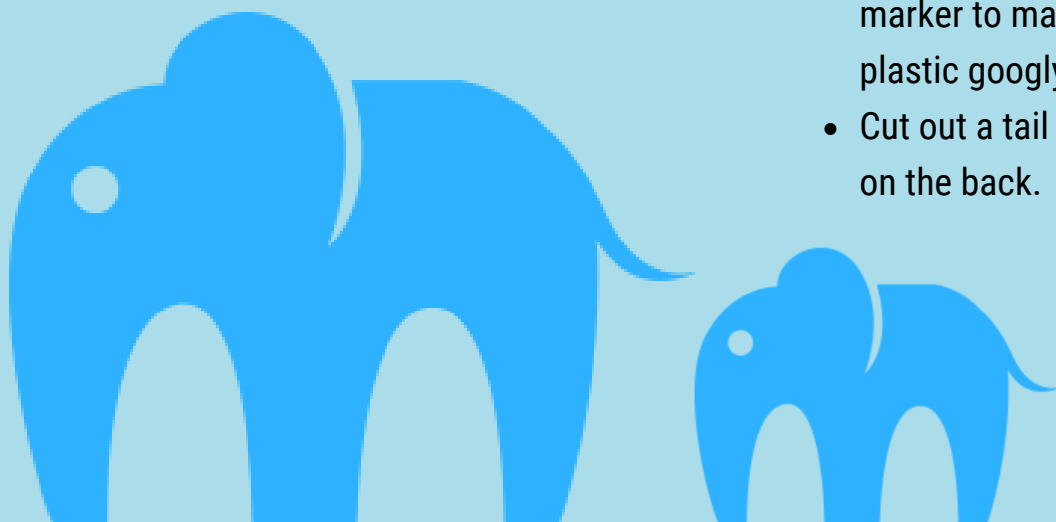

materials

- Toilet paper rolls
- Pink, red, and white construction paper
- Black construction paper or black marker
- Scissors
- Glue

directions

- Make the mouse's ears by cutting out hearts from two different colors of construction paper; make one set larger than the other from two. Glue the smaller hearts on top of the larger ones.
- Cut out thin stripes of white paper (for whiskers) and glue them to the bottom of the paper roll. Cut out a small heart to glue on top of the whiskers, in the middle.
- Either cut out small circles from the black construction paper or use the black marker to make eyes (rather than using plastic googly eyes).
- Cut out a tail from red paper and glue it on the back.
