

# Spider Web Plates

A FANIMAL KID ACTIVITY

## materials

- Black round paper plates
- Hole punch
- White yarn
- Scissors
- Spiders (store bought or handmade cut outs)

Photo Credit: Annelily Design

## directions

- Punch holes around the edges of the plate.
- Cut the yarn and tie it into a knot through one of the holes.
- Using the cut yarn, begin threading it through each hole back and forth into a web like pattern. If the yarn seems too long, you can tie it off. Cut extra yarn where needed.
- Place your spiders either on top of the web or under it.
