

#1 NO POVERTY

WHAT DOES NO POVERTY MEAN?

Poverty is not a charity task; instead, it is a justice task because everyone on Earth should be allowed their basic needs.

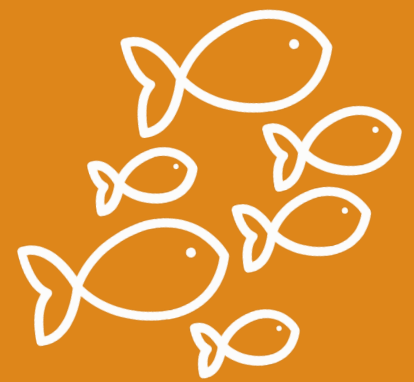

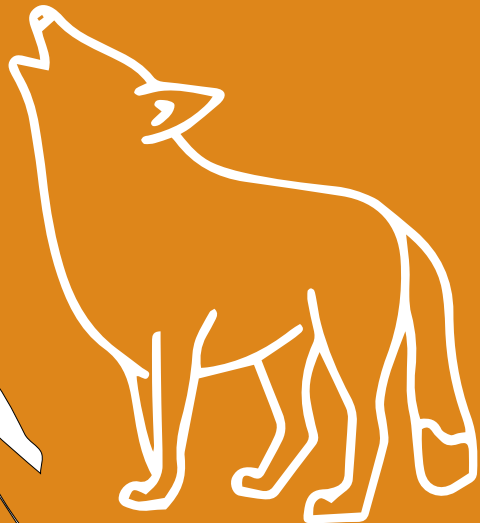

Everyone should have enough money for these needs.

Although the world began to make strides toward achieving a no poverty state, the unexpected COVID19 pandemic led to a drastic increase in poverty because the resources were not being produced and restocked fast enough. People lost their jobs and did not have funding to cushion the hardships.

HOW DOES NO POVERTY CONNECT TO ANIMALS?

If people are desperate for food and or basic materials, such as cloth, then they will go to any lengths to get what they need. As a result, although it is sad to say, illegal wildlife hunting increases. Therefore, if the world population wants to save animals, then actions need to be taken to ensure no poverty is not just achievable but **ACHIEVED**.

WHAT YOU CAN DO!

- Implement social protection systems
- Reduce the vulnerability of lower-class groups
- Reduce economic shocks
